LinkedIn: <https://www.linkedin.com/in/rajwinder-kaur-763376167/>

**OBJECTIVE:** To strive for excellence in IT industry to implement my acquired skills and knowledge.

## HIGHLIGHTS:

---

- Proficient understanding of code versioning tools such as Git.
- 1 Year experience in Web Development.
- Familiar working in programming languages such as C++, MySQL, jQuery, php, Java, ASP.NET, MVC, React
- Proficient in finding bugs and solve them.
- Proficient Understand the lifecycle of Software Development.

## TECHNICAL SKILLS

---

Software Applications:	Microsoft office 365(MS Word, MS Excel, MS PowerPoint), Outlook
Interpersonal skills:	Motivation, Responsibility, Active listening
Web Technologies:	HTML5, CSS
Database Systems:	MS SQL Server, phpMyAdmin
Programming Languages:	jQuery, C#, C, C++, php, Java, ASP.NET, MVC, React
Integrated Development Environment:	Visual Studio Code, Visual Studio, Data Grip, Eclipse

## EDUCATION

---

<b>Mobile Solutions Development</b> Conestoga College, Kitchener, ON	2020 – 2021
<ul style="list-style-type: none"><li>• Completed graduation with Distinction.</li><li>• Completed Co-op at 'Smart Council' and continue working as Part-time Student.</li></ul>	
<b>Bachelor of Technology (Computer Engineering)</b> Eternal University, Himachal Pradesh, India	2015 - 2019
<ul style="list-style-type: none"><li>• Completed with 80 percentage and received a scholarship</li></ul>	

## EXPERIENCE

---

<b>Software Developer, Smart Concil, Waterloo, ON Canada</b> <b>Reconciliation System</b> <i>Technologies – Hibernate, SSMS, React</i> <i>Roles &amp; Responsibilities</i>	<b>June 2021 – Present</b>
<ul style="list-style-type: none"><li>• Build interactive user-interface using React.</li><li>• Perform integration with back-end services and worked on user interface using material-UI.</li><li>• Handle and design the backend database in 3<sup>rd</sup> normalization</li><li>• Implementing micro-services in JPA using SSMS as database as per the requirement of front-end development.</li></ul>	
<b>Software Developer Intern, Larsen &amp; Toubro, India</b> <b>Manthan</b> <i>Technologies – MVC, LINQ, jQuery</i> <i>Roles &amp; Responsibilities</i>	<b>January 2019 –June 2019</b>
<ul style="list-style-type: none"><li>• Led a three-person team to develop a user-friendly system in <b>MVC</b> to record the latest improvements in the final year college project.</li><li>• Build the system more engaging by designing with bootstrap, CSS.</li></ul>

## Report Safety Concerns

**Technologies** – C#, LINQ, jQuery

**Roles & Responsibilities**

- Created a database from Scratch in SSMS which stores all the data of the system.
- Normalized the entire database into 3NF form to eliminate redundancy and get accurate data when querying the database.

## System Analyst intern, Larsen & Toubro, India

**Roles & Responsibilities**

- Collaborated with developers to ensure understanding of system context and meet client's expectations.
- Solved bugs and update the existing system with the latest changes according to client requirements.
- Debug and ran existing systems to understand the working of code (MVC and Asp.net) in the system.

## PROJECT WORK

---

### Yummy

Oct 2020 – Dec 2020

**GitHub link:** <https://github.com/LeticiaLBarbosa/Yummy>

**Technologies** – C#, LINQ

**IDE** – Visual Studio

**Achievements**

- Worked in a team to develop an application to implement object-oriented concepts that can handle multiple data and visualize the repository.
- Implement the Agile methodology to solve complex issues.
- Worked with team to design prototype in Figma
- Create and handle store procedures to efficiently run the program.

## VOLUNTEER

---

- Taught kids to enhance their communication and technical skills April 2020 - August 2020
- International Office Department volunteer. Helping new students navigate college facilities and campus tours at Eternal University during my bachelor's. 2016 - 2018

## INTERESTS

---

- Learning new languages/technologies and working on independent or team projects.
- Travelling different locations to explore more.
- Finding bugs in a program and solve them.
