

## HIGHLIGHTS:

---

- Demonstrated strong analytical abilities and effective problem-solving skills.
- I am Proficient in Java, Spring Boot, Rest APIs, ORM – Hibernate and I am familiar with programming languages as C# MVC, ReactJS, Python, Nodejs
- Good understanding of SDLC and working using Agile process in current organization.
- Around 2 years of experience working with Core Java, including Spring Boot.

## TECHNICAL SKILLS:

---

Software Applications:	Microsoft office 365(MS Word, MS Excel, MS PowerPoint), Outlook
Interpersonal skills:	Motivation, Responsibility, Active listening
Web Technologies:	HTML5, CSS
Database Systems:	SSMS, phpMyAdmin
Programming Languages:	Java, MVC, React, Spring Boot, Rest APIs, Hibernate
Integrated Development Environment:	Visual Studio Code, Visual Studio, Android Studio, DataGrip

## EDUCATION

---

### Mobile Solutions Development 2020 – 2021

Conestoga College, Kitchener, ON

- Completed the first term and second term with a 3.2 average.
- Intern: Successfully completed internship during Co-op program in a start-up organization.

### Bachelor of Technology (Computer Engineering) 2015 - 2019

Eternal University, Himachal Pradesh, India

- *Achievement:* Completed 80% of coursework with distinction and awarded Scholarship for academic excellence.

## EXPERIENCE

---

### Software Developer, Tata Consultancy Services, Toronto, ON Canada October 2022 – Present

#### Roles and responsibilities:

- *User Support and Issue Resolution:* Assisted users in managing their accounts and resolving issues related to the ETQ Software, ensuring smooth user experience and high customer satisfaction.
- *Agile Team Collaboration:* Contributed to Agile team sprints by completing assigned tasks within designated timeframes, ensuring sprint goals were met effectively.
- *Cross-functional Team Coordination:* Coordinated efforts to address operational issues promptly, ensuring minimal disruption to business operations.

**Roles and responsibilities:**

- *Developed Interactive User Interfaces:* Utilized ReactJS to build engaging and responsive user interfaces, focusing on component-based architecture and state management for dynamic user experiences.
- *Implemented REST APIs with Spring Boot:* Designed and developed RESTful APIs using Spring Boot, facilitating data retrieval, manipulation, and interaction between client-side and server-side applications.
- *Documented Microservices with Swagger:* Coordinated efforts to address operational issues promptly, ensuring minimal disruption to business operations.

**Software Developer, Larsen & Toubro, India January 2019 –June 2019**

**Manthan**

**Technologies – MVC, LINQ, jQuery,**

- Develop a user-friendly system in MVC to record the latest improvements.
- Performed queries on SSMS to retrieve required information to perform CRUD operations.
- Build the system more engaging by designing with bootstrap, CSS.

**PROJECT WORK**

---

**Products Application**

**Jan 2024 – Present**

**Technologies – Java, SQL**

**IDE – Visual Studio Code / IntelliJ**

- A project working currently in the organization used to maintain official records about agricultural sites in system.
- Support user on any issues and work on monthly sprints to develop more advanced features in the application as per the requirement.

**Book-Reader-Website (Open – Source Contribution)**

**July 2024**

**GitHub link:** [Vikleoboy/book-reader-website \(github.com\)](https://github.com/Vikleoboy/book-reader-website)

**Technologies – ReactJS, Typescript**

- Contributed to open-source project by fixing CSS issues to improve UI consistency and responsiveness.
- Developed and implemented dynamic form using React.js, enhancing user interaction.

**Reconciliation System**

**June 2020 - September 2022**

**Technologies – Hibernate, SSMS, ReactJS, Java Spring Boot**

- Build interactive user-interface using ReactJS.
- Perform integration with back-end services and worked on user interface using material-UI.
- Implement REST APIs using Spring Boot. Hibernate – ORM
